

## Australia Is Mecca For Pugilists To Garner Coin

Opinion in London Is that Langford-Johnson Fight Is Impossible to Stage in That Country, and that Any Prominent Bouts in Which Negroes Take Part Will Be Barred; Johnson Will Be in Good Shape For His Battle With Moran.

By Frank G. Menke.

NEW YORK, June 3.—Australia has become the pugilist's mecca. Just about as soon as a pugilist gets a reputation that stretches beyond the confines of his native land, the first boat for the land made famous by Bob Fitzsimmons, and from what we hear, the pugilist has a pretty good crop of shooks for his exhibition down there. The shooks have been who first checked that gold could be mined down there with a pair of boxing gloves gathered enough of the yellow stuff to keep their belt lines pretty well padded with fried chicken and now our white pugilists are doing likewise.

The first Bradley-Jeff Smith scrap some time back drew a \$12,000 house and each pugilist got about \$2,000. Ed McCarty got about \$2,000 for swapping punches with Dave Smith and the Jim Clabby-Jeff Smith battle which is to take place on June 6, is good to draw about \$25,000, which means about \$5,000 for each.

"Battling" Zip is back again at his old job of delivering trousers for a New York concern. For a number of days the trousers concern feared it would lose its star messenger boy, but a fellow named "Knock-em-Out" McWhorter told it that they didn't. This fellow Zip got to punching so many of the east side youths in such an effective manner that a gang named Johnny Brown informed Zip that he was a prize ring fighter and ought to quit his job delivering trousers and deliver punches.

So Zip did—or attempted to—for one night. Brown, as manager, sent Zip slipping against this Bahalowitz fellow, Quill, a number of Zip's friends were present when Zip commenced to slip in the preliminary scrap at one of the clubs here.

The bout had been pretty well heralded by the east side and when one of its offspring delinquent in the ring the east side usually is conspicuously absent, those present.

Zip started proceedings by unhooking a heavy right swing for the jaw of Bahalowitz. He didn't connect, but Bahalowitz did. And he connected again and again.

Well Zip gave a hardy yell, came around all right after a few days in bed although he still wears a mashed nose, a cut lip, a torn ear, some loose ribs and is minus a few teeth.

The only purpose in recounting what happened to Zip is to show the east side and to advise to some of the younger generation—the fact that you're good at delivering trousers.

The fight was a pretty well heralded by the east side and when one of its offspring delinquent in the ring the east side usually is conspicuously absent, those present.

## England Has Enough Trouble With Blacks; Wants No More

Many Who Have First Acquired a Little Reputation in the United States Have Gone to Antipodes to Line Money Belts; Meyers Disproves Mathewson's Statement that Baseball Is Game of Brains.

By T. R. Andrews.

MILWAUKEE, Wis., June 3.—There is no possibility of a fight in England between Jack Johnson and Sam Langford, according to the latest advice from London, for the government authorities are dead against bouts of this sort, especially those which create a great deal of publicity.

England has many colonies populated by black people and sufficient trouble already in managing them without importing fresh ones. Though it is not generally known, there were a number of serious riots in India following upon the defeat of Jim Jeffries at Rome, and the India department is determined that nothing of the sort shall occur in England to inflame the passions of the natives.

Johnson and Langford, both being negroes, do not apparently come within the prohibition. Nevertheless, the government is so afraid of a strong vote would be put upon the contest if it were contemplated for this country, that it is not contemplating for this country.

There's only one scientific way to build a light "Six" and that's the Studebaker way—the manufactured way.

Studebaker, literally, gets lightness with doubled or trebled strength—by heat treating the steels.

The other way—the dangerous and weakening way—is to assemble parts—no heat treated, and get lightness by reducing size.

Or, sometimes, a so-called light "Six" is slightly smaller than a large "Six" and practically as heavy.

The Studebaker SIX, moreover, is perfectly aligned, perfectly balanced, reduced and long life promoted.
